CSI Driver for Dell EMC VxFlex OS

1.1.5

Release Notes

Rev. 1.0
June 2020
These release notes contain supplemental information about CSI Driver for Dell EMC VxFlex OS. Topics include:

DELLEMC

Product description

The CSI Driver for Dell EMC VxFlex OS is a plug-in that is installed into Kubernetes to provide persistent storage using Dell EMC VxFlex OS storage system.

The CSI Driver for Dell EMC VxFlex OS and Kubernetes communicate using the Container Storage Interface protocol v 1.1. CSI Driver for Dell EMC VxFlex OS is compatible with Kubernetes versions 1.14/1.16 and OpenShift 4.2/4.3. The CSI Driver for Dell EMC VxFlex OS is validated against the Kubernetes CSI Driver Tests version 1.0.3.

The CSI Driver for Dell EMC VxFlex OS supports Red Hat Enterprise Linux (RHEL) 7.6 and 7.7 as host operating system. The CSI Driver for Dell EMC VxFlex OS supports Dell EMC VxFlex OS 3.0.0, 3.0.1, and 3.5 versions.

New features and changes

This section describes the new features of the CSI Driver for Dell EMC VxFlex OS in this release.

CSI Driver for Dell EMC VxFlex OS Version 1.1.5 supports the following features:

- Added support for Kubernetes 1.16 and OpenShift 4.3 with Red Hat Enterprise Linux CoreOS on master nodes and Red Hat Enterprise Linux 7.6 on worker nodes.
- Added support for Red Hat Enterprise Linux (RHEL) 7.7 as a host operating system for Kubernetes.
- Added support for HELM 3 based driver deployment.
- Added support for Dell EMC VxFlex OS version 3.5.

Fixed issues

The following table shows the fixed issues in this release:

Table 1. Fixed issues

Problem summary	Found in version	Fixed in version
Printing Log-in credentials in plain text in debug logging	1.0	1.1.5

Known problems

There are no known issues or bugs fixed in this release.

Software media, organization, and files

This section provides information on where to find the software files for this release of CSI Driver for Dell EMC VxFlex OS.

The software package is available for download from VxFlex OS GitHub page.

Additional resources

This section provides information about CSI Driver for Dell EMC VxFlex OS and get support .

Documentation

This section lists the related documentation for CSI Driver for Dell EMC VxFlex OS.

The CSI Driver for Dell EMC VxFlex OS is available on VxFlex OS GitHub page. The documentation includes the following:

- CSI Driver for Dell EMC VxFlex OS Release Notes (this document)
- CSI Driver for Dell EMC VxFlex OS Product Guide

Troubleshooting and getting help

Use the resources in this topic to get help and support.
